Summary

Highly skilled web developer with 2+ years of experience in developing dynamic and responsive web applications. Proficient in a variety of programming languages, frameworks, and tools such as HTML, CSS, JavaScript, React, Node.js, and PHP. Experienced in both front-end and back-end development, with a focus on creating intuitive user interfaces and seamless user experiences. Accomplished in developing and maintaining web applications from conception to delivery, while ensuring optimal performance, security, and scalability. Looking to leverage my skills and experience to contribute to a dynamic team in a challenging and rewarding web development role

Experience

Hospital Management App

SQI College of ICT

Mar 2023 - Present (2 months)

A hospital management app is a software application designed to assist healthcare providers in managing various administrative and clinical operations of a hospital or medical facility.

- I orchestrated the development milestone and architecture that facilitated scalability and good user experience.
- Implemented enriched features that aided smooth interaction and scheduling between patients and doctors.
- Designed the app with a good user interface and good user experience that increase ease of navigation and self explanatory actions.
- Orchestrated good security and strict authentication system for patients data privacy.
- Implement cloud file storage and retrieval using Cloudinary and ensured good unit testing.

Skills: Angular, CSS, Bootstrap, PHP, MySQL

Chat App

SQI College of ICT

Feb 2023 - Mar 2023 (2 months)

A chat application is a software application that allows users to communicate with each other in real-time over the internet.

- I orchestrated the development milestone and architecture that facilitated real time chat and good user experience.
- Implemented enriched feature that indicates the presence or absence of users.
- Designed the app with a good user interface and good user experience that increase ease of navigation and self explanatory actions.

- Orchestrated good security and strict authentication system for users data privacy.
- Implement cloud file storage and retrieval using Cloudinary and ensured good unit testing.

Skills: React, CSS, Bootstrap, Nodejs, MongoDB

Ecommerce Application

SQI College of ICT

Nov 2022 - Jan 2023 (3 months)

- I orchestrated the development milestone and architecture to build a secure, robust and scalable market-place website app.
- I implemented checkout and payment system using Paystack payment gateway api.
- I orchestrated real time notification using websocket and email notification for confirmation using nodemailer.
- I facilitated the implementation of good user experience to increase user traffic and interactions.
- This experience stretched me to utilizing advance tools and libraries in React like redux, lazy loading, hooks, image optimization and many more.

Skills: React, CSS, Bootstrap, Nodejs

Netflix App

SQI College of ICT

May 2022 - Jun 2022 (2 months)

Netflix is a popular video streaming service that offers a vast library of movies, TV shows, documentaries, and original content.

- I orchestrated the development milestone and architecture that facilitated scalability and good user experience.
- Designed the app with a good user interface and good user experience that increase ease of navigation and self explanatory actions.
- Implemented the use of REST APIs to get data.
- Orchestrated good security and strict authentication system for users data privacy.

Skills: Reactjs, Tailwind, Firebase

Cinema Ticketing App

SQI College of ICT

Jan 2022 - Mar 2022 (3 months)

A cinema ticketing app is an application that allows users to purchase movie tickets and reserve seats for upcoming films at their local cinema.

- I built the development milestone and architecture that facilitated ticket booking and good user experience.
- I implemented payment system using Paystack payment gateway api.
- Designed the app with a good user interface and good user experience that increase ease of navigation and self explanatory actions.
- Orchestrated good security and strict authentication system for users data privacy.
- Implement data storage and retrieval using localStorage and ensured good unit testing

Skills: HTML, CSS, Bootstrap, JavaScript

Printivo Design

SQI College of ICT

Dec 2021 - Jan 2022 (2 months)

Created a replica of the Printivo website front page design

Designed the page to be user-friendly and responsive

Learned how to use CSS effectively while working on the project

Used media queries to achieve a responsive web design

Skills: HTML, CSS

Education

SQI College of ICT

web development

2021 - 2023

Learned everything about software development and attained solid skills with frequent tests and practical projects day in day out.

HTML, CSS, JAVASCRIPT, BOOTSTRAP, PHP, NODE.JS, ANGULAR, REACT, VERSION CONTROL (Git). General programming concepts were learned in the institution.

Skills

HTML • Cascading Style Sheets (CSS) • Bootstrap • JavaScript • React.js • Angular • Node.js • PHP
